Speaker: Kevin Gason, Cast Iron Soil Pipe Institute

Kevin Gaston is the Southern Territory Manager at the Cast Iron Soil Pipe Institute, a not-for-profit trade association. In this role, he is responsible for building relationships with independent manufacturer rep agencies, code officials, inspectors, labor associations, trade schools, design/build contractors as well as the facilities maintenance and planning industry. Kevin is a twenty one year veteran of the construction and plumbing industry and is a frequent speaker on the life safety, resiliency, and sustainability of cast iron.
